

COLLAPSIBLE BOTTLE

For Ear Usage

- Read all instructions carefully prior to using.
- Flip up device applicator.
- Insert end of applicator just inside ear canal. While using, thumb to hold the end of the device, then gently press down on pump with your index finger to dispense the medication into the ear canal.
- Tilt head afterwards at a slight angle for 3 to 5 minutes to prevent an excess medication draining from ear canal.
- Wipe off the end of the tip before placing back in closed position. Store in a cool, dry place.
